RUNNING A SCHOOL SHOULDN'T MEAN CHASING INFORMATION.

Every day, school staff spend valuable time on repetitive tasks:

- ✓ Parents calling about attendance and absences
- ✓ Teachers answering routine enquiries
- ✓ Admin staff searching for pending-fee details
- ✓ Preparing timetables manually
- ✓ Tracking homework and activities
- ✓ Preparing exam results and report cards
- ✓ Managing holidays, events and important dates
- ✓ Maintaining student and staff records
- ✓ Following up on payments and preparing reports

Too much information. Too many registers. Too many repetitive calls.

VennsilixCampus™ brings it together — a connected digital platform that helps your school organize information, simplify routine work and keep everyone informed.
